Multi-certified Hobbs physician has traveled the world, loves nature's wonders

Kankanala: Healer, teacher, explorer

Dr. Sambaiah Kankanala of Hobbs was appointed to a board-certified specialty area of specialization. He’s the only doctor in New Mexico with that many certifications.

Bond OK to help county libraries

Eight Hobbs residents were sworn in as Court Appointed Children’s Advocates for CASA of Lea County by Judge Gary Clingman on November 6, CASA of Lea County strives to make Lea County a safer environment for our communities’ abused and neglected children through highly trained volunteer advocate and other child centered programs. All activities and efforts are designed to result in safe, permanent, nurturing homes for every child CASA of Lea County encounters in its work. For more information on how to become a CASA advocate or to help CASA of Lea County please call 393-0015. Pictured from left to right are back row, Brandi Bonilla, Genia Miller, Judge Clingman and Stan Walker; front row, Frederico Zamar, Maria Berlingieri, Elizabeth Reyes, Mary Ann Walker and Kelly Burkley.

Buck Vandermeier

Mr. Vandermeier is the founder and CEO of Sambaiah Kankanala, a Hobbs-based physician who has traveled the world and loves nature’s wonders.

Little drought relief expected this winter

ALBUQUERQUE (AP) — Following another defining two-week period of the year, farmers and ranchers have turned their attention to the challenges posed by the fourth year of drought.

"It's not promising," said New Mexico's Secretary of Agriculture Dr. Raymond Abeyta. "It's not looking real optimistic as we head through the winter either." said Abeyta. "But I'm not one to lose hope with what the world can do." New Mexico's natural resource agencies have overseen an unprecedented boreal winter, with snowfall this year reaching the highest levels since 1950.

"I'm very excited about this," echoed New Mexico State University Extension Specialist Dr. John Longworth. "We've seen snowfall in the entire state, and now it's time to focus on the crops and other agricultural enterprises." Longworth said.

"I've been pleasantly surprised," said Longworth. "We've seen a lot of snowfall, and it's been really helpful." Longworth said.

"I want to encourage farmers to consider the available water supplies," said Longworth. "We've seen a lot of snowfall, and it's been really helpful." Longworth said.

"I want to encourage farmers to consider the available water supplies," said Longworth. "We've seen a lot of snowfall, and it's been really helpful." Longworth said.

"I hope everyone will start planning for the long-term," said Longworth. "We've seen a lot of snowfall, and it's been really helpful." Longworth said.
